12. (Twice Amended) A repositionable toy kitchen comprising:

a first unit extending along a first substantially vertical longitudinal plane; and

at least one removable and repositionable second unit extending along a second substantially vertical longitudinal plane and positionable adjacent to the first unit in a first position, wherein the repositionable second unit is removably connected to a front surface of the first unit to form at least two separate play areas, and a second position, in which the first and second longitudinal planes are substantially coplanar.
